There's a lot of history on this page... Back in June of '95, we sold our first tile, a Running Hare 6x12, to nearby Pratt & Larson Tile of Portland, Oregon. All tiles on this page except La Pig were some of the very first designs we started with. I carved a couple of dozen designs over a period of six months not knowing if we would sell a single tile. But due to the continued support of many of you reading this, tiles have provided our livelihood ever since. Thank you!
